A MODEL PLATFORM.

Adopted by the Democrats In National

Convention. The following is the full and complete platform as adopted by the National Democratic convention:

We, the Democrats of the United States in national convention assembled, do reaffirm our allegiance to those essential principles of justice and liberty upon which our institu-tions are founded, and which the Democratic party has advocated from Jefferson's time to our own-freedom of speech, freedom of the press, freedom of conscience, the preservation of personal rights, the equality of all citizens before the law, and the faith-ful observance of constitutional limi-

During all these years the Demo-cratic party has resisted the tendency of selfish interests to the centralization of governmental power, and steadfastly maintained the integrity of the dual scheme of government established by the founders of this republic of republics. Under its guidance and teachings the great principle of local self-government has found its best expression in the main-tenance of the rights of the states and in its assertion of the necessity of contining the general government to the exercise of powers granted by the constitution of the United States.

RELIGIOUS FREEDOM.
The constitution of the United States guarantees to every citizen the rights of civil and religious liberty. The democratic party has always been the exponent of political liberty and religious freedom and it renews its obligations and reafirms its devotion to these fundamental principles of the constitution.

FINANCE.

Recognizing that the money question is paramount to all others at this time, we invite attention to the fact that the constitution names silver and gold together as the money metals of the United States, and that the first coinage law passed by congress under the constitution made the sil-

monetizing silver without the knowledge or approval of the American people has resulted in the appreciation the peeple; a heavy increase in the burden of taxation and of all debts, abroad, the prostration of industry, and impoverishment of the people.
We are unalterably opposed to monometallism, which has locked fast the

prosperity of an industrial people in paralysis of hard times, Gold mono-metallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only un-American, but anti-American, and it can be fastened on the United States only by the stifling of that spirit and love of liberty which proclaimed our political inde-Barkley at the great Bryan ratifica- of the revolution.

FREE COINAGE. We demand the free and unlimited speeches made on that occasion by coinage of both silver and gold at the waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all of acceptance at New York and debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

We are opposed to the policy and practice of surrendering to the hold-ers of the obligations, of the United States, the option reserved by law to the government of redeeming such obligations in either silver coin or gold

We are opposed to the issuing of interest-bearing bonds of the United States in time of peace, and condemn the trafficking with banking syndi-cates which, in exchange for bonds and at an enormous profit to them-

could not be delegated to corporations or individuals. We therefore denounce the Issuance of notes intended to circulate as money by national banks as in derogation of the constitution, and we demand that all paper which is made a legal tender for public and private debts or which is receivable for duties to the United States shall be be issued by the gov-ernment of the United States and shall be redeemable in coin.

We hold that tariff duties should be levied for purpose of revenue, such du ties to be so adjusted as to operate equally throughout the country and not discriminate between class or sec-

tion, land that taxation should be limited by the needs of the government honestly and economically ad-

below the cost of production, and thus deprives them of the means of purchasing the products of our home manufactories, and, as labor creates the wealth of the country, we demand the rassace of such laws as may be the passage of such laws as may be necessary to protect it in all its rights. We are in favor of the arbitration

their employes, and recommend such legislation as is necessary to carry out this principle.

The absorption of wealth by the few, the consolidation of our leading railroad systems, and the formation of trust and pools require a sticter control by the federal government of those arteries of commerce. We demand the enlargement of the powers of the interstate commerce commissof the interstate commerce commission and such and such restrictions and and guarantees in in the control of railroads as will protect the people

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish by oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed, and the products of the people's toil are depressed in price till they no longer repay the cost of production.

We denounce arbitrary interferences by federal authorities in local affairs of gold, and a corresponding fall in as a violation of the constitution of the price of commodities produced by the United States and a crime against free institutions, and we especially object to government by injunction as public and private; the enrichment of a new and highly dangerous form of the money lending class at home and abroad, the prostration of industry, in contempt of the laws of the states and rights of citizens, become at once legislators, judges, and executioners, and we approve the bill passed at the last session of the United States senate, and now pending in the house of representatives, relative to contempts federal courts and providing for trials by jury in certain cases of con-

We denounce as disturbing to busi-cess the Republican threat to restore the Mckinley law, which has twice been condemned by the people in na-tional elections, and which enacted under the false plea of protection to home industry, proved a prolific breeder of trusts and monopolies, enriched the few by the expense of the many, restricted trade, and deprived the producers of the great American staples of access to their natural mar-

Until the money question is settled we are opposed to any agitation for further changes in our tariff laws, except such as are necessary to meet the deficit in revenue caused by the adverse decision of the supreme court on the income tax. But for this decision by the supreme court there would be no deficit in the revenue under the law passed by a Democratic congress in strict pursuance of the uniform decisions of that court for 100 years, that court having in that decision sus-tained constitutional objections to its enactment which had preciously been overruled by the ablest judges who have ever sat on the bench. We declare that it is the duty of congress to use all the constitutional power which remains after that decision, or which

We hold that the most efficient way of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products

man to be good humored. Jollity and exhuberant health are a proverbial combination. The hearty man who is always laughing doesn't have any trouble with his digestion. It has been said that laughing makes people healthy. The truth is that health makes people laugh.

There isn't any other thing so essential to health as regularity in the action of the bowels. Most all sickness starts with some derangement of the digestive functions. Good digestion means good, pure blood, and that means strength. Once let the bowels become clogged with refuse matter, and the whole system is deranged. Impure, poisonous matter gets into the blood and plants the seeds deranged. Impure, poisonous matter gets into the blood and plants the seeds for all sorts of sickness.

TERRITORIES.

We favor the admission of the territories of New Mexico, Arizona and Oklahoma into the United States, and we favor the early admission of all the territories having the necessary population and resources to en-title them to statehood, and while they remain territories, we hold that the officials appointed to administer the government of any territory to-gether with the District of Columbia till they no longer repay the cost of production.

We demand a return to that simplicity and economy which benefits a Democratic government and a reduction in the number of useless offices, the salaries of which drain the substance of the people.

We extend our sympathy to the people of Cuba in their heroic struggle for liberty and independence.

THIRD TERM. We are opposed to life tenure in the public service. We favor appointments based upon merit, fixed term of office, and such an administration of the civil service laws as will afford equal opportunities to all citizens of ascertained fitness. We declare it to be the unwritten law of this republic, established by custom and usage of one hundred years and sanctioned by the examples of the greatest and wisest of those who founded and have maintained our government, that no man should be eligible for a third term in the presidential office.

WATERWAYS.

The tederal government should care for and improve the Mississippi river and other great waterways of the republic, so as to secure for the interior states easy and cheap transportation to tidewater. When any waterway of the republic is of sufficient import-ance to demand aid of the government such ald should be extended upon a definite plan of continuous work until permanent improvement is

Confiding in the justice of our cause and the necessity of its success at the polls, we submit the foregoing declarations of principles and purposes to the considerable judgment of the American people. We invite the sup-port of all citizens who approve them and who desire to have them made effective through legislation for the relief of the people and the restoration of the country's prosperity.
